# 2016 CodeCamp Survey Data

Who considers coding bootcamps?

What are the outcomes after coding bootcamp?

Misc data

Tabs at top show user what page they're currently on and also act as navigation menu.

## Filters:

- Male
- 30-35 years old
- Has Mortgage: No

When page loads, all data on this page would populate. Users would then be able to mouseover each chart which would expand a bit. On expanded chart, they could click a particular demographic (like 30-35 age group) which would be added to the filters list.

## EDUCATION

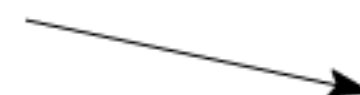

Degree

Major

Student Debt Owed

Clicking the arrow will prompt an animation where current page slides out left and new page slides in from right.

Pie graphs a little boring so we may switch these out for more visually striking charts (probably using D3).

## EMPLOYMENT

Employment Field

## 2016 CodeCamp Survey Data

Who considers coding bootcamps?

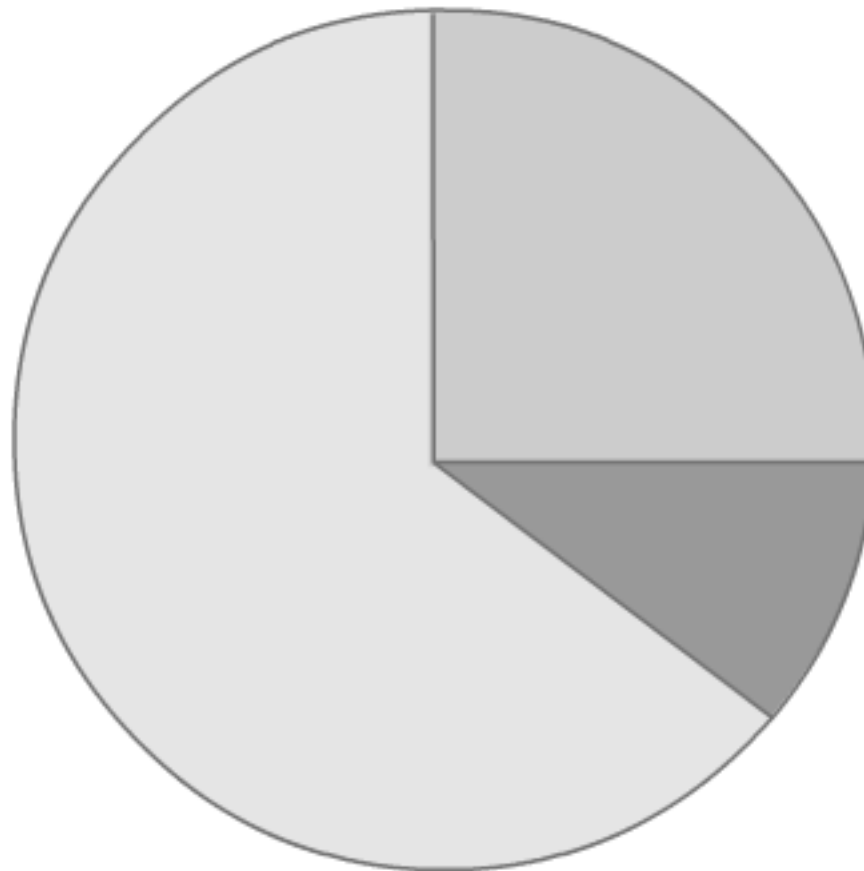

What are the outcomes after coding bootcamp?

Misc data

### BOOTCAMP

X

Bootcamp Name

Add filter:

- ☒ DevLeague
- ☐ Hack Reactor
- ☐ General Assembly
- ☐ Other

This is the sample screen someone would see if they clicked on a specific graph. They could choose one option to filter through or click X to collapse.

Misc data

## BOOTCAMP

Bootcamp Name

Completed?

Recommended?

Loans

Student Debt Owed

### Filters:

- Male
- 30-35 years old
- Has Mortgage: No

Much like charts on first page, hovering over chart will cause it to expand. Options are shown when expanded. From there, you can click on specific groups with chart (like DevLeague from Bootcamp Name), which will add to filters.
